- Joerg Steffen Meissner, **Director of AEU**

11:45 – 13:45 Round table. Development of regional waste treatment plans: main issues and ways to solve them

Moderator: Svitlana Nemesh (Kolomiiets), coordinator of ISWA Young Professionals Group in Ukraine

Regional waste management plans are strategic planning documents that, taking into account the goals and targets set at the national level, should determine how infrastructure will develop and change approaches to waste treatment in the country’s regions over the next 10 years.

Topics to be discussed:

- What challenges and problems do customers and developers of regional plans face in the process of working on them and joint search for ways to address these issues
- Proposals to central executive bodies on necessary changes in development of regional plans

Participants:

- Ruslan Strilets, **Deputy Minister for Digital Development, Digital Transformation and Digitization of Ministry of Ecology and Natural Resources of Ukraine**
- Oleksandr Marikovskyy, **People’s Deputy of Ukraine**
- Ihor Satin, **Candidate of technical Sciences, Head of the Department of the State Enterprise “Research and Design Institute of Municipal Economy”**
- Andrii Kibets, **Director of “Ukrainian Research Institute for Development and Implementation of Utility Programs and Projects” LLC**
- Fedir Luchenko, **Adviser to the Kharkiv mayor**
- Olena Koltyk, **Director of the Waste Management and Environmental Safety Department, Ministry of Ecology and Natural Resources of Ukraine**
- Tetiana Omelianenko, **Candidate of economic sciences, Independent expert on waste treatment issues**
- Viacheslav Sorokovskyy, **Expert on decentralization and public services, DESPRO Project**
- Dmytro Laznenko, **Expert Consultant of the DESPRO Project on waste treatment**
- Andrii Hnap, **CEO Waste Ukraine**
- Iryna Nikolayeva, **Ph.D., Environmental Safety Expert, OSCE Project Consultant**

14:00 – 15:00 Case. Development of a regional waste management plan on the example of Lviv region

Organizers: Eggersmann GmbH (Germany), OPE organic, Public utility enterprise “Zelene misto”

Part 1. Separate collection and composting of organic matter as a way to reduce waste that falls into landfills and provokes fires: the experience of Lviv

Speaker: Sviatoslav Yevtushenko, Director of Public utility enterprise “Zelene misto”

- How the process of composting organic waste is implemented in Lviv - from theory to practice
- Organic waste management: why the population needs to be taught to get organic to composting (working with separate collection containers)
- Composting site in Lviv - how everything works
- How separate organic collection is organized: features of waste collection and disposal, advantages and challenges
- Compost realization: present and prospects
- Tariff for composting: why it is more profitable to process organic matter than to bury it
- Organic promo: how to motivate residents in Lviv to sort organic waste - from free recycling to affordable compost
- Answers to participants' questions

Part 2. Resolving issues with waste generated and reclamation of existing landfills. Mobile solutions from Eggersmann GmbH, which already operate in Ukraine. Support program for Ukraine in 2021 from Eggersmann GmbH and OPE organic

Speakers: Volodymyr Malynovskyi, Head of Project, OPE organic
Serhii Prokopenko, Representative of Eggersmann GmbH in Ukraine (mobile machinery)

- Should we build a plant or buy modern economical and powerful equipment? Let's consider the options and make a balanced choice
- How to reduce investment in waste recycling by 5-10 times
- The most economical method of processing organic from available ones in the world
- The launch of the first organic waste composting station in Ukraine in 2020 began its work
- Support of Ukrainian utilities in 2021 with the most modern equipment and qualified staff from Eggersmann GmbH
- Actions of Eggersmann GmbH in Ukraine. Exchange of experience and real results of 2020
- Answers to participants' questions

15:15 – 16:15 Special session 1. Equipment, technologies and current status of waste management segments

Machinery for transshipment of scrap metal solid waste

Olaf Kiewitz, Sales manager, **Baljer & Zembrod**, Germany

Max Aicher - a solution to logistics problems in waste management

Dimitri Wiegel, **Max Aicher**, Germany

Waste management as a component of environmentally-oriented enterprise management
Olexandra Tarnovska, Director, **Invest Finance Company**

New legislation in the field of medical waste management - Bill 2207-1-d

Vladyslav Smirnov, Managing Partner and Founder - **Medical Constructor**, Member of the Board of Trustees – **OKHMATDET**

Refinancing of projects from JSC TASCOMBANK within current international programs

Andriy Kudinov, Deputy Head of VIP Corporate Client Department (Energy Sector), **TASCOMBANK**

16:30 – 18:00 Special session 2. Recycling of main types of secondary raw materials

Moderator: Olexandr Lymar, Waste Management Expert, **Ukrainian Institute for the Future**

Session sections:

- Legislative initiatives and state policy in the field of production, use and import of secondary raw materials
- Recycling enterprises experience: issues and prospects
- Modern recycling technologies and equipment

Participants:

- Petro Semko, General Director, **Ukrvorma Association**
- Volodymyr Slabyi, Chairman, **UkrPEC**
- Sviatoslav Yevtushenko, Director, **Green City**
- Vladyslav Zakrevskyi, representative in Ukraine, **CHANG WOEN MACHINERY**
- Yurii Plyshak, Director, **Elbor-M**

We invite you to join industry professionals, learn new trends of the market and take a direct part in its formation.

Participation in the exhibition allows presenting products and services to professionals in the field of waste management in Ukraine, which make key decisions at the national and regional levels.
